

Advice for Parents and Guardians

About the MYLE

- Michigan Young Learners English tests are suitable for children between the ages of 6 and 12 years old
- There are three levels: Bronze, Silver, and Gold
- There are three sections per level: listening, reading/writing, and speaking
- Special arrangements are available for test takers with special needs
- Tests are designed for American English

Before the test

- Make sure the child is familiar with the MYLE format and tasks
- Help the child learn by participating actively in their learning
- Put yourself in the child's shoes and help them to overcome any difficulties or anxieties they may have
- Remember to be positive and praise the child for their progress in English
- Make sure you know where the test is going to take place and how to get there
- Check the start time of the test
- Make sure the child gets a good night's sleep on the night before the test
- Make sure the child has prepared everything they need to bring to the test

On the day of the test

- Please allow plenty of time to get the child to the test center—you should aim to arrive at least 15 minutes before the test is due to begin
- Do not give the child food or drinks to take into the test room
- The listening and reading/writing sections will be administered to a group of test takers
- Reassure the child that the test will be fun and that they should relax and not be nervous

After the test

- Results will be issued within a few weeks
- Every child who attempts all parts of the test will receive a certificate
- The certificate shows how well the child has done in listening, reading/writing, and speaking
- One medal means that the child needs to improve in that section
- Five medals means the child did very well in that section and answered most of the questions correctly
- A total of 10 or 11 medals across the three sections means that the child should be ready to start preparing for the next MYLE level
